## Software Developer

Buenos Aires, Argentina | +54 9 11 2278 9466 | [victor.catamo.rojas@gmail.com](mailto:victor.catamo.rojas@gmail.com) | [LinkedIn](#) | [Skype](#)

## Work Experience

<b>Software Developer Sr</b>	<b>The App Master, Buenos Aires, Argentina</b>	<b>July 2018 – Current</b>
<ul style="list-style-type: none"><li>Studied and applied, in an ASP.NET Core project, a structure based on a simplified version of an architectural pattern that separates data retrieving from data changes (CQRS). The goal was to make easier and more flexible the access of the current state of the entities throughout the different modules of the software, whilst standardizing the way changes propagated through said entities into commands aware of the domain rules and constraints (DDD).</li><li>Researched Frontend technologies for the project, having in mind the ease of the learning curve for the whole team, and finally coded a Single Page Application using Vue.js as our final choice based on the documentation, community and ease of use.</li><li>Implemented Continuous Integration using Jenkins in a Build Server, thus improving release times by 90%.</li></ul>		
<b>Software Developer Ssr</b>	<b>Hexacta, Buenos Aires, Argentina</b>	<b>August 2017 – July 2018</b>
<ul style="list-style-type: none"><li>Improved SQL Server Stored Procedures performance in Production Environments by an average of 20%.</li><li>Participated in the development of a new tool for the client company, whose goal was to make their internal processes more efficient. Implementing it using ASP.NET Core, Entity Framework, JQuery, Kendo UI, TypeScript and Sql Server, all hosted in Azure.</li></ul>		
<b>Freelance Software Developer</b>	<b>Independent, Remote</b>	<b>January 2017 – July 2017</b>
<ul style="list-style-type: none"><li>Created a proof of concept of Microsoft Bot Framework for SiderysBSN that integrated with Outlook and setted up meetings for you from Skype.</li><li>Implemented Twilio video calls between Mobile and Web for a startup named HLink iFarmacias.</li></ul>		
<b>Software Developer Ssr</b>	<b>GIGA IT, Venezuela</b>	<b>June 2016 – December 2016</b>
<ul style="list-style-type: none"><li>In an existing project, made by the client, developed a new module to dynamically handle bulk loads to the database from spreadsheets with different layouts. Implemented it using ASP.NET MVC and OpenXML, using Hangfire to handle the longer processes in the background.</li></ul>		
<b>Software Developer Jr</b>	<b>Norkut, Venezuela</b>	<b>February 2015 – June 2016</b>
<b>Software Development Intern</b>	<b>Norkut, Venezuela</b>	<b>April 2014 – November 2014</b>

## Skills

Programming Languages	Database Engines	Frameworks, Runtimes, ...	Languages
C#; Python; Java; C++; SQL; JavaScript; TypeScript;	SQL Server; Oracle; MySQL; MongoDB; Elastic;	.NET Framework; .NET Core; Vue.js; Node.js; React.js; Entity Framework; Firebase;	English; Spanish; German (Currently learning)

## Education

<b>BS Informatics Engineering</b> (Ingeniería de Sistemas)	Universidad de Margarita, Venezuela	October 2010 – March 2015
