

# Curriculum Vitae

**Full Name:** Victor Daniel Catamo Rojas  
**Address:** Praha 11-Chodov, Praha, Czech Republic  
**Phone Number:** +420 725 913 045  
**Email:** victor.catamo.rojas@gmail.com

**Bachelor** of Informatics Engineering  
6 years of experience with C#, .NET and JavaScript  
3 years of experience with Vue and others

## Skillset

**Current Stack:** .NET Core, Node.js, Vue  
**Databases:** SQL Server, MongoDB

**Programming Languages:** C#, JavaScript, TypeScript  
**Spoken Languages:** English (C1), Spanish (Native)

## Side Projects

Sorting Visualizer  
*Vue, Vuex, Vuetify*

<https://catamo.github.io/sorting-visualizer>  
*Mobile-first sorting visualizer that shows how the sorting algorithms work*

MVP Venue Hotel Finder  
*Vue, Nuxt, TailwindCSS,  
Nodejs, Typescript, Docker*

<http://venue-hotel-client.herokuapp.com>  
*MVP for a hotel finder for event venues that consumes and API*

## Work Experience

05.2019 - 09.2019  
**Remote,  
Argentina**

Techona  
Software Engineer

- Casino games development, using an internal JavaScript framework of the company. It was a wrapper for Pixi JS and used the Google Closure Library to enable modularity. They also used TeamCity for CI/CD
- Worked mostly developing the Frontend of games, using JavaScript to create new games based on the company's framework

10.2019 - 12.2019  
**Prague,  
Czech Republic**

The App Master  
Senior Software Developer

- Reengineering project for the platform of one of the main online theatre ticket sellers in Argentina. Participating in all stages and modules of the project as part of a team of 2 developers
- Developed the client for the ticket selling web application (on-site/call centre) using Vue + Vuex + Vue Router. It had complex interactions like the selection of seats, listing of theatres and plays, payments funnel, sales reports and more. All bundled by Webpack
- Coded the REST API using ASP.NET Core, it was a monolith service that applied a simple version of the CQRS pattern
- Created administrative module using ASP.NET MVC, Razor and JQuery
